- ▶ EPA's Lifetime Achievement Award

MARY LOGAN

Principal Senior Technical Advisor

Career Summary

Before joining TEA, Ms. Logan had over 36 years of experience at the U.S. Environmental Protection Agency managing the assessment and cleanup of some of the most complex and controversial Superfund sites.

Ms. Logan has experience investigating and implementing cleanups for sediment, soil, and groundwater with diverse contaminants including dioxins, PCBs, semi-volatile and volatile organics, pesticides, metals, and radionuclides. She is considered an expert on sediment remediation and has presented at numerous conferences.

Ms. Logan has had extensive interactions with community members and other stakeholders to get input and build trust. She also conducted numerous negotiations with parties responsible for cleanup.

Shortly after leaving EPA in 2021, Ms. Logan was awarded one of the Agency's highest honors – a Lifetime Achievement Award. Ms. Logan has a BA degree in biology from the University of Chicago and a MS degree from the University of Illinois School of Public Health with a focus in Environmental and Occupational Health Science.
